The guidelines below for returning work are to help you plan your studies. If there are time constraints or other restrictions it is possible to streamline the course by skipping some cultural items or interim tests. If time is really short or you live in a Spanish speaking country, it is possible to do the course really quickly by eliminating some of the extra activities in each paso. Please discuss this option with your tutor first to be sure if this will suit you. All students should complete the Vaya Extra exercises at the end of each unit as you need to complete these successfully before you can go on to the next unit. Do not proceed to the next paso until you have handed in your feedback form and finished all the Vaya extra exercises.
